24th September 2011

Dear Mrs Addison,

Planning Application P/2011/0844

I strongly object to the demolition of an ancient stone wall in Links Close.

I can see no reason why this part of our heritage should be removed. I expect that it is connected with the application to build on an AONB, which should be stopped.

Yours sincerely,

The "Council" (no doubt presided by its so called advisors) talks
loosely about new jobs. We then learn that the Bloomer people are
bringing their own workforce down. They also present the value of
"Tourism" to the Bay's economy. If this scheme is permitted we shall
have the urban sprawl from the end of the ring road to Brixham
Toll House. Traffic problems have already been mentioned - I can tell
you that some companies are, even now, refusing to deliver into
Brixham - what price tourism if it means sitting in a 6 mile
Traffic Tail. Please do not permit this.
